PERSPECTIVES IN BIOLOGY AND MEDICINE

VOLUME 10 · CONTENTS

1	GARRETT HARDIN	The History and Future of Birth Control
19	E. L. TATUM	Molecular Biology, Nucleic Acids, and the Future of Medicine
33	GIFFORD B. PINCHOT	Whale Culture—a Proposal
44	BERNARD TOWERS	Medical Scientists and the View That History Is Bunk
56	A. S. PARKES	The Youngest Profession
67	JOHN R. PLATT	Man and the Indeterminacies
81	THEODORE MELNECHUK	POEM: Alpha Helix Departure
84	DICKINSON W. RICHARDS	The Effect of Pancreas Extract on Depancreatized Dogs: Ernest L. Scott's Thesis of 1911
96	PETER QUINCE	Intimidation
103	ALBERT J. DINNERSTEIN, MILTON LOWENTHAL, and BERNARD BLITZ	The Interaction of Drugs with Placebos in the Control of Pain and Anxiety
118	BLAND W. CANNON	A Neurosurgeon's Identification: "Queer Breed" or "Happy Breed"?
125	M. GRUBER and R. N. CAMPAGNE	Regulation of Protein Synthesis: An Alternative to the Repressor-Operator Hypothesis
133		BRIEF PROPOSAL: Hypoascorbemia, the Genetic Disease Causing the Human Requirement for Exogenous Ascorbic Acid, by Irwin Stone
135		BOOK REVIEWS: *A Manual of Simple Burial*, edited by Ernest Morgan
137	RICHARD L. LANDAU	EDITORIAL: Civil Rights and the Clinical Investigator
141	SIR MACFARLANE BURNET	Concepts of Autoimmune Disease and Their Implications for Therapy
153	COLTER RULE	A Theory of Human Behavior Based on Studies of Non-Human Primates
177	ERNST BORIS CHAIN	The Quest for New Biodynamic Substances
211	RUSSELL MEYERS	The Physician's *Dis-ease* as an Expert Witness: Its Semantic Pathology

226	CHARLES E. GOSHEN	Origins of Contemporary Civilization
238	JOHN M. MYERS	On Limitations of Theories of Biology
251	RONALD L. WILLIAMS	A Re-evaluation of the Role of the Autonomic Nervous System upon Renal Function from the View of a Pharmacologist
259	JACOB E. BEARMAN and BYRON WM. BROWN, JR.	The Relevance of Modern Clinical Trial Methodology to the Practice of Medicine
269	BEN BLOOM	A Role for Day and Night in Evolution
272	HOWARD T. HERMANN and JOHN CHRISTOPHER KOTELLY	An Approach to Formal Psychiatry
310		BRIEF PROPOSAL: Chromosomal Residual Protein-SH Groups in Cancer and Gene Control, by Frances E. Knock
314		LETTERS TO THE EDITOR: Ashley Montagu; Leigh Van Valen; J. Merritt Emlen
319		BOOK REVIEWS: *The Creative Elite in America*, by Nathaniel Weyl; *The Living Races of Man*, by Carleton S. Coon, with Edward E. Hunt, Jr.; *The Testing of Negro Intelligence*, by Audrey M. Shuey
325	IRVINE H. PAGE	The Mosaic Theory of Arterial Hypertension—Its Interpretation
334	JANE H. MURNAGHAN and PAUL TALALAY	John Jacob Abel and the Crystallization of Insulin
381	HARRY BLUM	A New Model of Global Brain Function
409	RICHARD W. SCHAYER	A Unified Theory of Glucocorticoid Action. II
419	MARK GRAUBARD	The Frankenstein Syndrome: Man's Ambivalent Attitude to Knowledge and Power
445	ALAN NATAPOFF	The Consideration of Evolutionary Conservatism toward a Theory of the Human Brain
462	WILLIAM H. STEWART	Medical Education and the Community
471	HALVOR N. CHRISTENSEN	Some Transport Lessons Taught by the Organic Solute
495		BOOK REVIEWS: *The History of Psychiatry*, by Franz C. Alexander and Sheldon T. Selesnick
497		EDITORIAL: The Need To Study Biological Differences among Racial Groups: Moral Issues
500	CURT STERN	Genes and People
524	E. LLOYD DU BRUL	Pattern of Genetic Control of Structure in the Evolution of Behavior
540	PERCIVAL BAILEY	Harun al-Rashid

559 E. Gellhorn — The Tuning of the Nervous System: Physiological Foundations and Implications for Behavior

592 Roger G. Hart — Selective Destruction of Cancer Cells

601 Peter Brill — Ob-Gyn

602 Stanley W. Jackson — Subjective Experiences and the Concept of Energy

627 William R. Uttal — Evoked Brain Potentials: Signs or Codes?

640 Lawrence A. Kohn — His Masters' Voice

643 Irving B. Fritz — An Hypothesis Concerning the Role of Carnitine in the Control of Interrelations between Fatty Acid and Carbohydrate Metabolism

679 — Letters to and from the Editor: Peter Fong; Ralph L. Holloway; Dwight J. Ingle

*ADAM'S RIB AND EVE'S LEG-ACY**

You are that lovely gender
That came from Eve
Willowy tender
Whereas I come
From that Adam
Who did not grieve
To let
His cutlet
Be dissected
And vested with
Flesh so pliant.

And so, Madam,
As a direct descendant
With amorous intent
I reclaim forthwith
Those replicated
Skeletal bits
And their attachments.

LOUIS MUNAN

LAFAYETTE, IT IS HERE!

That noble Marquis
Dying in luxury at seventy-three
While medically attended
Prophetically proclaimed:
Americans
Born democratically
Without ought
Take precious pains
With your great heritage
And beware of medicare
For in your dotage
It will endanger
Your right to die
Owning nought.

LOUIS MUNAN
